SUMMARY

I'm a Product Designer proficient in user research, information architecture, and visual design. I have experience in project management, which informs business strategy and collaboration in my process.

UX PROJECTS

Mise en Place – Cooking Recipe App

- Designed from bottom up a cooking app for curating recipes in the kitchen. Produced MVP and fully branded mobile solution.

Bloon – Cloud Storage Platform

- Designed and branded a cloud storage app from inception to final product. Conducted extensive user research to define project scope.

BusyBus – Mobile Transit App

- Designed screens for the transit app BusyBus to help users plan around, and find, bus schedules.

WORK EXPERIENCE

Managing Editor

Penguin Random House, 2013 – present (NYC)

- Project manage across design, editorial and production groups on over 100 titles per year
- Drive schedules, track budgets, and coordinate project deliverables on highly-designed projects
- Lead quarterly “Spec & packaging” meetings with production & design to determine, then execute, project specs
- Facilitate communication across creative teams

Managing Editorial Assistant

Macmillan Publishers, 2011 – 2013 (NYC)
